

The measure of a man is not who he is but who he has to share it with and then how they receive it. Never forget what is important in life as by love of others and fairness as to how they are treated by you and how they treat you. **Deception** is the act of causing someone to accept as true or valid what is false or invalid. We must be wary of circumstances all around us for **deception** as in 2 Thess 2:10 is a warning that says, *"and with all the **deception** of wickedness for those who perish, because they did not receive the love of truth so as to be saved"*. The passages in verses 1:7 anticipates the second coming of our Lord. His arrival will put things right. Afflicted Christians can find relief in knowing that Jesus will judge those who trouble and **deceive** them. 2 Thess 2:11-12 indicates that God will send a deluding influence so that the persecutors might believe what is false in order that they all may be judged who did not believe the truth, but took pleasure in wickedness. Troubles and trials assault all Christians. Likewise, divine retribution comes to all persecutors regardless of their rank and station in life. As Christians our faith and endurance will prove our status as inheritors of Gods' kingdom. God will avenge those who **deceive** us, giving the persecuted relief. When Jesus returns with His angels, He will inflict flaming fire on those who do not know God and on those who heard the gospel but rejected it. Their punishment will include eternal ruin and separation from God. When Jesus returns, those who have believed in Him will share in His glory and marvel in Him. This look into the future is meant to help us continue to be steadfast under persecution and trouble. God will enable us to live successfully and worthy of our calling. Eph 5:6 says, *"Let no one **deceive** you with empty words, for because of these things the wrath of God comes upon the sons of disobedience"*.

**Fraud** is defined as the wrongful or criminal **deception** intended to result in financial or personal gain. So, **deception** and **fraud** are integrally woven with the first an act of **evil** to result in the second, **fraud** with personal rewards. Gal 6:7 says, *"Do not be **deceived**, God is not mocked; for whatever a man sows, this he will also reap"*. Or Luke 16:10-13 drives the results home of **deception** and **fraud** *"He who is faithful in a very little thing is faithful also in much; and he who is unrighteous in a very little thing is unrighteous also in much. If therefore you have not been faithful in the unrighteous wealth, who will entrust the true riches to you? And if you have not been faithful in the use of that which is another's, who will give you that which is your own? No servant can serve two masters, for either he will hate the one, and love the other, or else he will hold to one, and despise the other. You cannot serve God and money."*

Chaos abounds around us being caused by **deception** and **fraud**. Not since the end of World War II have we seen such turmoil in our Nation and the desire of many to prevent human rights and the Conservative Christian way of life, liberty, and the pursuit of happiness. This is not to say that the difference in ideologies between Democrats and Republicans are so different but much more intense on the Democrat Left, particularly with the Major News Media owned by organizations promoting **deception** and **fraud**. In studying the difference of the Federalists (Democrats) and Republicans under President Thomas Jefferson, a Republican, the same differences of ideologies, culture, national defense, etc, are in play today. The one big difference being the rights of the people for freedom of speech, freedom of religion, the right to honest elections, and the right to bear arms being squashed by the Democratic leadership of the Nation along with its allies the Major News Media and Healthcare industries including Big Pharma. We have claimed a government of the people and by the people in a Republican Democracy, but we are fast spiraling into a Socialist Democracy which is eroding the rights of the individuals.

The biggest **deception** and **fraud** in our lifetime have been associated with the Russian Hoax under President Trump with two failures for his impeachment soon followed by a fraudulent National Election putting in place a fake President and fake leadership of our United States of America. This is not enough

so with the policies of a fake administration we now have a **deceptive** and **fraudulent** Healthcare System fueled with the monies of a Big Pharma. With the fake Government promoting mandates of vaccines, which are not true vaccines as a virus cannot be identified or isolated, the COVID19 pandemic occupies most of the people's concerns. True facts of the pandemic are hidden from the people by the Government and its obedient ally the Major News Media. Real facts from real medical professionals are flooding the secondary news sources with no reflection on Major News Media programming. We are living in a time of typical socialistic control of information and attempts, so far successful, to circumvent the Constitution and Bill of Rights of the United States. Following are several examples of **deception** and **fraud**:

Sunday, July 25, 2021, by: Mike Adams (Secondary News Source)

(Natural News) After more than a year of committing scientific **fraud** to push false "positives" via PCR testing, the CDC has announced it is withdrawing the RT-PCR Diagnostic Panel on December 31st of this year:

*After December 31, 2021, CDC will withdraw the request to the U.S. Food and Drug Administration (FDA) for Emergency Use Authorization (EUA) of the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, the assay first introduced in February 2020 for detection of SARS-CoV-2 only. CDC is providing this advance notice for clinical laboratories to have adequate time to select and implement one of the many FDA-authorized alternatives.*

The use of PCR tests for COVID illness diagnosis is a global scientific **fraud**, since no PCR instrument can produce quantitative results that might indicate a specific viral load. Yet this CDC-approved testing protocol was relied on to fabricate the "casedemic" illusion which pretended that hundreds of millions of people around the world were infected with COVID. The entire thing was an elaborate quack science **hoax**, and anyone familiar with PCR technology has known this from the very start. PCR instruments are not quantitative instruments. They cannot tell you *how much* of something is present in a given sample. Every lab scientist familiar with PCR instruments knows this. Yet they continue to go along with the global **fraud** of diagnosing "**positive**" cases via PCR testing. The PCR testing approved by the CDC to diagnose COVID was **fraudulent** from the very first day. The entire COVID "plandemic" has been based on **fraudulent** PCR testing, and now the CDC is announcing it is pulling the most frequently used test, perhaps in an effort to replace the test with yet another **fraudulent** protocol that can be controlled by health authorities to worsen the "pandemic" on demand (or, perhaps, claim COVID has been eliminated and declare victory).

From the very start, the entire pandemic has been nothing but a globally coordinated PCR testing **fraud**. As Thermo-Fischer sales representatives told me in face-to-face meetings, PCR instruments cannot determine quantitative results. They do not use quantitative instrument calibration curves or quantitative external COVID standards. This means PCR instruments have no legitimate role in diagnosing any person with illness or COVID infections. The mere presence of a single viral fragment, multiplied trillions of times through PCR cycling, does not indicate anything of scientific or diagnostic value.

To support the Biden/Harris administration's efforts to get Americans jabbed with the COVID-19 injection, Kamala Harris's husband, Douglas Emhoff, made the following statement at a mobile vax clinic in New

Orleans: A COVID jab is *“the only thing that is going to prevent you, your family, and others from dying or getting really sick.”* (Did you hear that?!) Naturally, the mainstream media is *not* labeling his statement as “medical misinformation,” despite the fact that almost 6,000 fully jabbed Americans have died or been hospitalized with COVID-19, according to the CDC’s own data. Sadly, too many unsuspecting Americans are being **coerced, bribed, or forced to take the shot every single day**. And, this reality is only thanks to a massive censorship and Big Tech-media-government campaign, in which Big Pharma propaganda continues to live strong while the truth is silenced. As a result, millions are left wondering what happened to free speech. More importantly, what is the agenda behind pushing a false narrative and denying people the right to informed consent to make their own, educated decisions about their health? As a result, millions are left wondering what happened to free speech. More importantly, what is the agenda behind pushing a false narrative and denying people the right to informed consent to make their own, educated decisions about their health?

### **Jonathan Landsman interviewer of NaturalHealth365**

Peter A. McCullough, MD, MPH, was interviewed to shed light on multiple aspects of the so-called pandemic. Dr. McCullough – an accomplished, pro-science internist, cardiologist, epidemiologist, and professor of medicine at Texas A&M College of Medicine in Dallas – goes into great detail why he finds it extremely concerning that U.S. pandemic responses had a singular focus on injecting the masses. He argues that **the program should have been shut down many months ago** due to the massive number of reported adverse effects. The staggering reality is that the Vaccine Adverse Event Reporting System (VAERS) exceeded the safety limit for COVID-19 jab-related adverse events on January 22, 2021. Today, we have at least over 10,000 COVID shot-related deaths acknowledged by the CDC and included in the VAERS database. Never mind that according to a [government insider](#), this number is likely much higher. As a practicing cardiologist, Dr. McCullough has a profound understanding of blood clotting, and he finds the reports of post-jab blood clots extremely concerning. He explains that in injected individuals, the blood clots are due to the spike protein – the little spine on the ball of the virus. The injections turn the body into a virtual spike protein factory through their dangerous mechanism of action. It is well understood that spike proteins damage the blood vessels and cause blood clots throughout the body.

Dr. McCullough gives an insightful explanation to the question many people fail to ask before rolling up their sleeves. Although at first, the content of the vials was not well understood, it is now clear that the shots are based on lipid nanoparticles. Using lipid nanoparticles in medicines is not new. Multiple studies reveal that lipid nanoparticles readily distribute throughout the body, getting into organs such as the brain, heart, adrenals, and ovaries. A biodistribution study of Pfizer’s COVID injections also revealed that **these nanoparticles hyper-concentrate in reproductive organs** and may even get incorporated in our human DNA and get passed down through cell division. Despite the fact that [ZERO healthy children died from COVID-19](#), the push to inject as many of them as possible continues. Dr. McCullough points out that not only do children not get seriously ill from this virus, but many are likely to have natural immunity at this point.

**Natural immunity is far superior to jab immunity.** Considering the alarming number of reports of blood clots and heart inflammation among children, the risks far outweigh the benefits. Many schools that are

mandating the jabs have no policies in place and no fair exemption process. Moreover, according to Dr. McCullough, jab mandates of investigational shots violate the Office for Human Research Protections Code of Conduct and should never be allowed to take place. Despite the government's relentless effort to convince us that we are at the mercy of this invisible virus, Dr. McCullough has a positive message for all of us. He continues to share how he has been helping his patients during the pandemic to prevent and treat COVID infections with fantastic results. Dr. McCullough is a big proponent of early treatment, and he is not alone. Many organizations, including America's Frontline Doctors, support early treatment and have seen incredible results. His early outpatient therapeutic treatment program can reduce hospitalization by 85 percent. Bottom line he says: **Don't let the media bully you into living in fear**, mislead you with an unscientific narrative, and coerce you into becoming part of this grand experiment. Educate yourself and make informed decisions about your healthcare.
